

Fortul roman de la Albota (jud. Argeș), vedere în perspectivă, de la est-sudest. Model teren prelucrat după „modelul numeric al terenului” de la ANCPI, rezoluție 5 m.

Roman fortlet from Albota (Argeș County), looking in perspective from east-southeast. Terrain model processed after the ‘terrain numeric model’ provided by ANCPI (the Romanian authority for maps and cadastre), with the final resolution at 5 m. Vertical exaggeration x2. Black line – the fort; dotted pink – the protection area; green line – the approximate area of the civilian settlement.
